

**2017 Additions to the BCCLS Circulating Collection - All
libraries and their circulation
A snapshot by Dave Franz - Chief of Fun and Despair**

We have access to an incredible amount of data on the items we purchase and add to our collections. The following statistics were derived from Simply Reports. An item list report was generated to capture the lifetime circulation of circulating items made first available from January 1, 2017 to December 31, 2017. The report was run on May 5, 2018. Periodicals and reference collections were omitted. No attempt was made to distinguish between truly new titles added to the collection and older items that were linked and made first available during 2017.

Report parameters:

- Item assigned branch abbreviation
- Item assigned collection abbreviation
- Item call number
- Marc title
- Item first available date
- Item lifetime circulation count
- Item circ status
- Item barcode

Collection abbreviations used: AFIC, AMED, ANF, JFIC, JMED, JNF, YAFIC, YAMED, YANF

The large record sets were divided into Adult, Juvenile, and Teen collections.

Items that had a status of "withdrawn, lost, or missing" were removed from the data sets.

Results on separate pages.

The Excel file is separately available.
