

Teen Take-Out D.I.Y.

INSTRUCTIONS

Make a personalized photo cube!

Kit includes:

- Four CD cases
- One container of super glue
- *Pictures for photo cube not included

**Free to all Ridgewood Library cardholders
entering Grades 6-12.**

How To:

You will need a ruler, a pen/pencil and scissors.

- Decide on what photos or images you would like to use. (You can hand draw these images or print them out.)
- After you have your four images, measure and cut each to fit inside the CD case cover. It should be less than 5in x 5in or 12cm by 12 cm.
- Open the cover of the CD case and insert the image face down. Close the case and repeat the process three more times.
- Finally apply glue to the spine of one of the CD case and press firmly against the back of another.
- Continue this process until you have created a cube with your cases.
